

TOWNSIDE HUNGER HILL ROUNDABOUT

Upcoming closure and diversion information

Starting Monday 25th March 2019

On Monday 25th March 2019, Mildren Construction Ltd will be expanding the Hunger Hill works currently in progress onto North Street as part of the overall Hunger Hill improvement Scheme.

The entire width of the existing brick paved carriageway and existing kerbs both sides of North Street will be excavated with a new alignment of conservation kerbs being installed.

The current brick pavements will be replaced with coloured pattern imprinted asphalt.

WORKS AND DURATION

To allow us to complete these works safely and effectively, we will be closing the one way section of North Street. There will be no access onto North Street from Town Gate Bridge during the works which are planned to take 6 weeks.

DELIVERIES

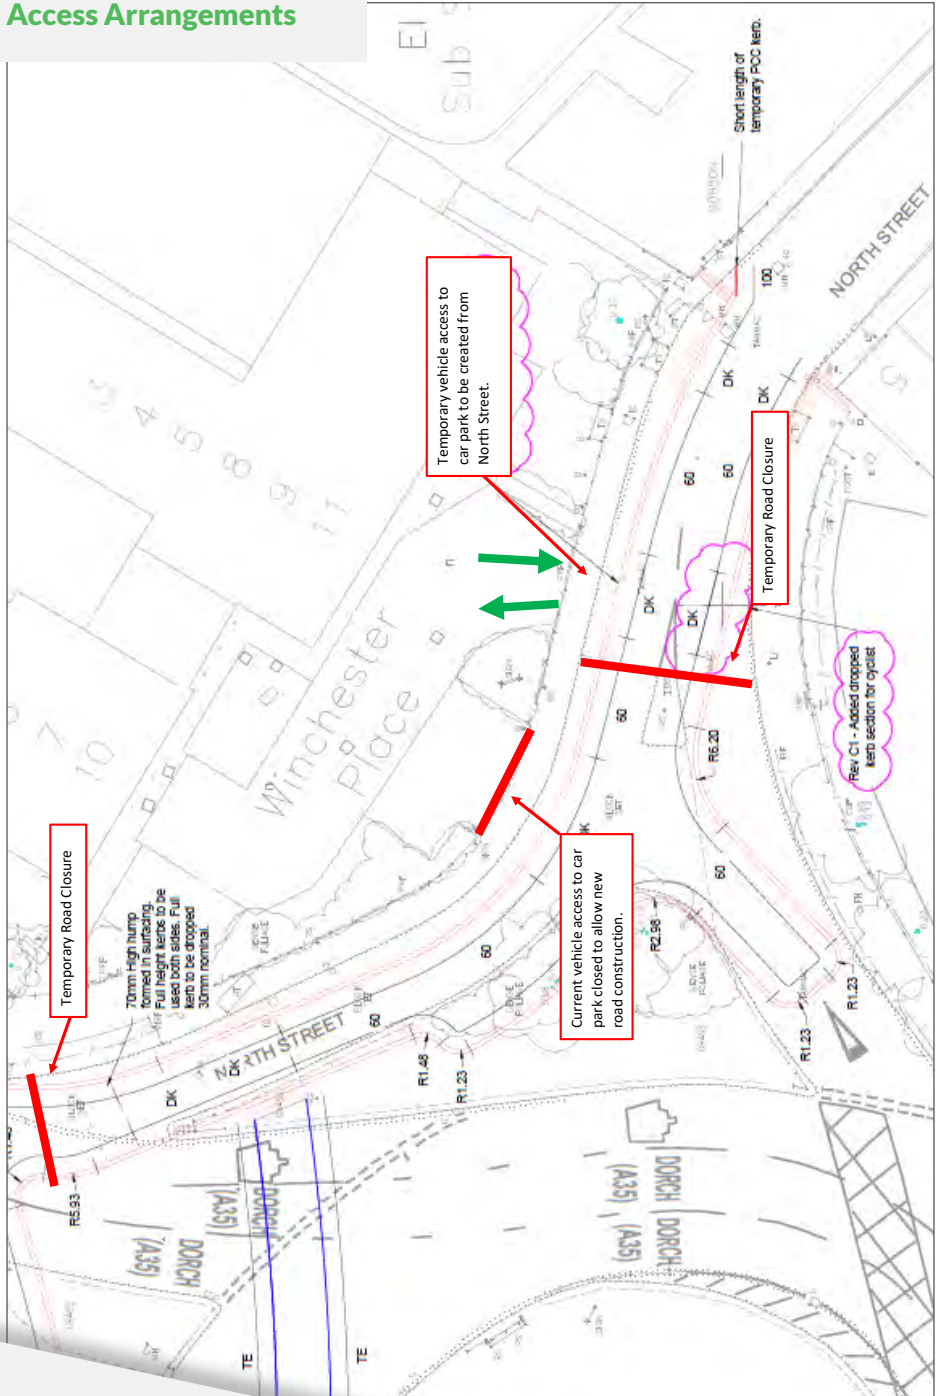

There will be access for deliveries, businesses and residential properties from Newfoundland Drive and the turning point by Sibbett Gregory offices will remain.
